For personal use only

Much like its namesake, **Martian Chess** is a game of capturing pieces. Players move and capture individual pieces, and each type of piece has distinct rules for movement on the chessboard. However, *Martian Chess* differs from Chess in critical ways. First, piece ownership is determined not by color, but by location. Second, instead of capturing a specific piece, winning is determined by points, making it possible to force the end of the game and still win with no pieces left in that player's control. Lastly, *Martian Chess* supports 4 players, and can be played with 3, 5 or 6 players with the addition of geomorphic chessboard sections.

1. Print "Actual Size" (100%) on cardstock.
2. If printing double-sided, set "flip on short edge".
3. Once printed, fold on **this side** twice to create box spine.
4. **Then**, flip over, lay flat, and use cut lines to trim away excess.
