

Replacement Labels for Milton Bradley's Guesstures™

By: Mike Cooper – mcflash03@hotmail.com (BGG ID: Thosw)

Description: These are homebrew replacement labels for Milton Bradley's Guesstures™ Mimer-Timer. Print with no page scaling on full-page labels on a good color laser or inkjet printer at the best quality. Each label has a white line around it as a cutting guide.

For the clapper labels, print pages 3 & 4 twice (one for each side). The easiest way to cut them out is with a straightedge and an Exact-o knife or some other device that cuts in a straight line. If you flip one of them over, the sides should line up to make the expected chevron shape.
