### errata for **KOREA '95** - The Immun Gun Goes South

**K95 01** The South Korean CAP and 20th Mechanized divisions, marked with set-up code 'D', must set up in or within 2 hexes of a hex of Seoul.

**K95 02** The US 1/2 Mechanized Brigade counter lists its starting location as Hex 5712. That is in North Korea and wrong. The correct starting hex is Hex 5217, as noted in the rules.

**K95 03** The Unit Type Modifier Chart on the map is incorrect. The correct chart is in the rules and also on the self-adhesive sticker supplied with each copy of the game.
